PRODUCT DESCRIPTION

A permanent/peelable two side tape with a tissue carrier. The open side has a modified acrylic adhesive, and the closed side a peelable acrylic adhesive. The liner is a two sided release system which overlaps at each edge to give a 'fingerlift' product for easy liner removal. The adhesives have good resistance to UV light, plasticisers and temperature variation.

APPLICATIONS

The special perm/peel feature of this tape makes 2181/F ideal for protection/scratch pads, poster mounting or core splicing. The paper carrier offers ease of hand application and conformability of the open side adhesive to more difficult surfaces.
